- Provide very helpful slides for seminar  
Vice nice and easy-going
- Provides comprehensive slides on top of the solution sets provided which were very useful
- Really enjoy these seminars. Arnaud explains answers in good detail and goes through all the algebra required. I also enjoy the way he brings in real life examples where he is able to.
- Really nice slides
- Super passionate in macro. Excellent explanation of complex ideas. Good at engaging students. Very clever person.
- Well prepared material for the classes, useful tool to go through after class to review  
Includes some interesting practical elements from real world  
And gives some very useful explanations beyond the notes, making the class feel very helpful
- supporting the seminar with high quality slides

1.13) 1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- I think sometimes participation is low because some of the answers are visible on the slide and nobody really wants to be the one reading off, so i think the overall quality of the seminar could be improved if you focused on asking specific questions to us that are not answered on the slides and just encouraged people a bit more to stick there neck out and try to answer them, but overall i enjoy your class very much, thanks for the effort!
- Timings of teaching content could be better managed to ensure we can cover the key content sometimes.
